---

Hi Jennifer,

Below are my responses:

- Item 1: I have removed "Internal NASA"-related statements from all slides, and I have uploaded the new version with filename LAND\_50m\_FINAL\_r4.pptx
- Item 2: No SBIR protected information in attachment.
- Item 3: I have changed the distribution to "Do not distribute" as you have instructed. Once the packaged is accepted, then can I update in the future to 'final' and change the release back to public?

Regards,  
John

**Subject:** ACTION NEEDED: Approval Required: NF-1676 20220003686 - EG / John M Carson

Hello,  
Please see the following items below that needs your attention before we can move forward with approving the subject DAA. Please let me know when you've taken care of the items below.

Item 1:

On several slides of the presentation, it shows "Internal NASA Use Only. Not Cleared for External Release" in the footer. If this does not need to be on the presentation, please remove it but do not delete the original presentation in STRIVES just upload the new one.

Item 2:

The acronym SBIR appears on several slides of the presentation so I need to verify there is no SBIR protected information in the conference paper.

Please Reply to this comment with the appropriate statement:

1. No SBIR protected information in attachment.
2. SBIR protected information in attachment.

Item 3:

If the presentation is “Draft”, the NASA Distribution cannot be “Public.” Instead, you need to change the NASA Distribution to “Do Not Distribute” and select one of the following on the DAA Form.

—NASA Distribution—

---

Distribution

**Do Not Distribute**

---

NASA will disseminate this STI to the widest practicable audience per agency policy, as indicated.

Submission Pending Acceptance

Preliminary Research

Only the Publisher

Other/Approval Only (please specify in Additional Information)

Thanks,

*Jennifer R. Sharp*

**Subject:** ACTION NEEDED: Approval Required: NF-1676 20220003686 - EG / John M Carson

You are listed as a "JSC STIDAA Office" approver for NF-1676 Submission [20220003686](#) and it is ready for your review.

Submission Details	
Document ID	<a href="#">20220003686</a>
Title	LAND: Technologies to Precisely Land Payloads and Avoid Landing Hazards
STI Type	Presentation
Primary Author	John M Carson
Point of Contact	John M Carson
Approving Org	EG
Requested Approval Date	2022-03-10
Publication/Event Start Date	2022-04-07

You can manage your STI (NPD 2200.2) NF-1676 submissions at any time by logging in to [STRIVES](#). It is the author's responsibility to track the status and promptly respond to comments as needed through completion to obtain all signatures prior to releasing the STI.
